

**Read Right *from the Start***  
by the Rollins Center for Language & Literacy

## Help Us Give Georgia's Children a Voice

65% of Georgia 3rd graders can't read at grade level. That leads to high dropout rates and the continuing cycle of poverty. These children need our help to reclaim their futures.

Research shows vocabulary, language and comprehension are critical for young children, but traditional early childhood education does little to build these areas. Developed by the Rollins Center, **Read Right from the Start offers free online courses for Bright from the Start credit** that give preschool and pre-K teachers the tools to make immediate, lasting impacts in children's lives.

### Read Right from the Start Teaching Strategies Help Teachers:

- engage in effective, two-way communication with children
- interact with children to build vocabulary
- teach and extract language through stories and questions
- create interactive classroom learning centers
- be intentional with every activity they plan for the classroom
- make a life-changing difference for every child they teach

We need your support to get every early childhood educator in Georgia using these strategies. It's time to engage children in a new way. It's time for Read Right from the Start.
